Find a Theme

1. **Topic:** Name an idea that comes up more than once.
2. **Theme:** Say what the story suggests about the idea in a full sentence.
3. **Evidence:** Pick two details and explain what they show together.

Example: Asking for help → Getting help with one part of a problem can make it possible to do the rest yourself.

Nora cannot tighten the cart wheel while it shifts. Eli holds the cart; Nora lines up and tightens the wheel herself. Help makes her solution possible.

Quick test: Would the sentence make sense without the character names? Could I show why it fits with two details from this story?
