

Central Ideas and Summaries: Printing Guide

Print only what you will use

File	Planned PDF pages / use
Start Here	3 pages; teacher orientation
Starting Task	2 pages; Looking for Shade, then response space
Focused Practice	4 pages; shared Panels passage and four supplied teaching tasks
Follow-Up Check	2 pages; Sound-Cue Rehearsal after teaching
Later Transfer	2 pages; Two Planning Tools comparison
Teaching and Answers	7 pages; keep with teacher
Teaching Record	2 pages; copy as needed
Printing Guide	2 pages; teacher preparation

Use the full two-page check: the first holds the text, the second the prompts and response space. Students may look back. Focused Practice pages 2–4 refer back to page 1; keep that passage available. Do not hand out teacher answers or all later checks with ordinary practice. The Word copies are editable and may reflow; inspect their print preview after any change.

Central Ideas and Summaries: Printing Guide

Keep later evidence distinct

Text / place	Exposure and use
Shared Tool Case, original lesson and teacher model here	Worked first-teaching text; reuse deliberately, not a fresh check.
Labels That Could Move, original lesson	Guided practice; keep its role.
Notice Board, original lesson / literacy collection / substitute kit	Same text in those places. Once shown, treat a repeat as familiar practice.
Reading-club display, Quick Reading Checks	Different existing summary check; its own prompt requires the later-check detail. Use only if unseen and suited to your purpose.
Looking for Shade	New entry task. Save until entry use; do not display in preview.
Panels That Could Be Borrowed	Shared focused practice; examples and answers are for instruction.
The Sound-Cue Rehearsal	Different follow-up text; keep it back until use. Once taught or discussed, it is no longer fresh.
Two Planning Tools	Different later comparison task; added organization demand, not an equivalent form.

The complete download separates student and teacher folders. It also includes the existing first-teaching selections and teacher guide for offline preparation. Give learners only the selected files. The preview shows teacher orientation, not a check passage or answer.
