

Continue Practice: Make a Claim Traceable

Practice with familiar evidence

Use the Common-area details and report page in Lessons and Practice. This is another opportunity with familiar sources. Choose a claim about the depicted pattern near the Common toward Back Bay.

Trace the claim

Write your claim. Then give a map detail from 1775, a map detail from 1883 and a report detail. Explain which detail helps describe the difference and which helps explain human action.

Your response

Improve the limit

Write a limit that names a particular unanswered question about your claim. Explain what additional kind of source could help answer it.
